

## HIGHTEC CLP 220 SYNTH

High - performance synthetic Industrial Gear Oil

### Description

HIGHTEC CLP 220 SYNTH is a synthetic industrial gear lubricant offering outstanding lubrication performance under severe operating conditions, including reduced friction and long service life for optimal gear protection.

HIGHTEC CLP 220 SYNTH is formulated to have excellent load carrying capacity and micropitting performance providing long component life even under shock loading conditions. HIGHTEC CLP 220 SYNTH also have excellent corrosion protection, even in the presence of contamination by water and solids.

HIGHTEC CLP 220 SYNTH is formulated using an advanced additive system in combination with specially selected synthetic base fluids to provide outstanding resistance to breakdown over long duration and/or high temperature operation.

HIGHTEC CLP 220 SYNTH has excellent water separation properties, such that excess water can be drained easily from lubrication systems to help extend the life of the gears and ensure efficient lubrication of the contact areas.

### Application

HIGHTEC CLP 220 SYNTH is recommended for the use in highly stressed industrial gears such as:

- Enclosed industrial gear systems
- Lubrication of bearings and other components in circulating and splash-lubricated systems
- Certain systems where extra long life is required, maintenance is infrequent or systems are inaccessible.

### The quality of this product is equivalent to EU regulations

- Meet the CLP requirements according to DIN 51517-3
- Meet the ISO 12925-1 Type CKD specification

### Typical characteristics

Property	Method	Unit	Value
Density at 15 °C	ASTM D-7042	g/ml	0.847
Kinematic viscosity KV 40	ASTM D-7042	mm²/s	220
Viscosity index	ASTM D-7042	-	145
Flash point	ASTM D-92 / DIN EN ISO 2592	°C	>230
Pour point	ASTM D-97 / DIN EN ISO 3016	°C	-30
FZG A/8.3/90 (min.)	DIN 51351/2	SKS	>12
Copper corrosion 100 A3	DIN 51759	Ranking	1
Steel corrosion	DIN 51 585 A	Ranking	0-A

The characteristics shown are typical of current production.
